

Jerusalem...Ramallah...Hebron...

Nablus...Jenin...Gaza...Bethlehem

Palestine We Are With You

Palestine is a nation in the making. Today, Palestinians are facing a state terrorist attack by Israel, which seeks to destroy Palestinian society and deny the implementation of internationally recognized rights.

We support the Palestinians' right to resist foreign military occupation and to defend its citizens. These are the most fundamental rights of any people, and the duty of those who govern them.

We express solidarity with the emerging State of Palestine, its elected Authority, and the Palestinian people. We are pained and saddened at the tragic loss of life that has resulted from this most recent Israeli military onslaught.

Palestine wants peace. But Palestine's longing for peace will not lessen its determination to end the illegal 35-year old Israeli military occupation that violates all basic human and civil rights.
